# UNITED STATES PATENT OFFICE.

JULIUS MUELLER, OF WILMINGTON, N. C., ASSIGNOR TO CHARLES G. SHEPARD AND WALTER J. SHEPARD, BOTH OF BUFFALO, N. Y.

## DESIGN FOR A TOY SAVINGS-BANK.

SPECIFICATION forming part of Design No. 16,121, dated June 2, 1885.

Application filed January 15, 1885. Term of patent 7 years.

*To all whom it may concern:*

Be it known that I, JULIUS MUELLER, a citizen of the United States, residing at Wilmington, in the county of New Hanover and State of North Carolina, have invented and produced a new and original Design for Toy Savings-Banks, of which the following is a specification.

This design relates to the general configuration or form of a toy savings-bank; and it consists of a base or support, upon which is placed the figure of a horse.

My new design is clearly represented in the accompanying drawing, in which A represents the base or support, consisting of an oblong chest or case provided with ornaments on its sides. B represents the figure of a horse stand-

ing on the base A. C represents a trough resting on the base A in front of the horse. The body of the horse is supported by an ornamental column, D.

I claim—

The design for a toy savings-bank, consisting of a base, A, having the manger or feed-trough C at one end, the central column, D, and the figure of a horse, B, resting on the same, substantially as shown and described.

Witness my hand this 27th day of December, 1884.

JU. MUELLER.
